Subject: HS2 Works Notifications SRM:037174260

We're writing to let you know about some planned works that we will be carrying out in your area. , in order to reduce the amount of emails you receive we have amalgamated a number of notifications into this one email.

Notice of water main diversion – Lichfield Road, Whittington

To allow for the construction of the new railway and to continue to ensure a safe and reliable water supply, South Staffs Water will be commencing work on the diversion of a water main in October 2022. South Staffs Water will be carrying out the diversion of two existing water mains.

All works will be undertaken within the carriageway of Lichfield Road, Whittington near the junction of Marsh Lane, Whittington. In order to carry out the work safely, a road closure will be in place for the duration of the works.

The work is planned to start on 31 October 2022 and is expected to last until 2 December 2022. All the works will be undertaken between the hours of 8.00am to 6.00pm Monday to Friday and 8.00am and 1.00pm Saturday. The majority of vehicles being used for these works will be Transit van size work vehicles, with some machinery being delivered to site using Large Goods Vehicles. We do not anticipate the level of these traffic movements will have any significant impact on the local road network. The below plan shows the extent and position of the road closure and diversion route. The site location will be Lichfield Road, Whittington, WS14 9LA and will be approx. 150m long solely within Lichfield Road We have designed our works to avoid disruption to the water supplies of our customers.

Closure of Park Lane

We will be undertaking work along Park Lane from Monday 24 October. The work includes, vegetation clearance, installing security fencing and signage, constructing of our haul road and creating a safe work zone for our works access off Park Lane.

The works will take place from Monday 24 October. To carry out our works safely, we will install a road closure of Park Lane for one week. The road closure will be in place between the hours of 9:30am to 3:30pm each day. Following the week closure, we will install temporary traffic lights at the same location for two weeks. This will start from Monday 31 October and will be in place 8am to 5pm each day.

Construction activities Handsacre

We will be continuing works in the Handsacre area. This advanced works notification covers work from October 2022 to May 2023, including: • Dismantling of Hanchwood House on Shaw Lane • Constructing our haul roads • Constructing our compound area at the junction of Shaw Lane and Tuppenhurst Lane • Ground investigation surveys, to help us identify the location of buried utility services, such as gas, electric or water.

Haul roads are temporary roads within our working area that allows us to move materials and machinery and access our construction site effectively. Haul roads are used for construction traffic only and ensures minimal disruption to the local road network. To complete our works, at this time, no traffic management is required. Upcoming work in this area may require traffic management and will have an impact on the local road networks. Once this work has been planned, we will send further updates. The works take place between October 2022 and May 2023. Our working hours will be 8am to 6pm. Our workforce can be on-

site one hour before and after to set up and secure our equipment.
